Education

- **University of Arkansas** — Fayetteville, AR
  Ph.D. Candidate, Electrical Engineering — *Expected: Summer 2023*
- **University of Arkansas** — Fayetteville, AR
  Master of Science, Statistics & Analytics — *May 2021*
- **Bangladesh University of Engineering & Technology (BUET)** — Dhaka, Bangladesh
  Bachelor of Science, Electrical & Electronic Engineering — *September 2015*

Technical Skills

- **Languages**: Python, MATLAB, R, SQL, C++, C
- **ML Frameworks**: PyTorch, GluonTS, TensorFlow-Keras, scikit-learn, Jupyter
- **Others**: Git, LaTeX, Tableau, Bash, Slurm, High-Performance Computing

Experience

- **Amazon Web Services** — Seattle, WA
  Applied Scientist Intern — *May 2021 - August 2021*
  - Worked on unsupervised anomaly detection algorithm for univariate time series using GluonTS.
- **Lawrence Berkeley National Laboratory** — Berkeley, CA
  Summer Intern — *May 2020 - August 2020*
  - Lead developer of contrastive self-supervised representation learning for galactic images. This approach outperformed state-of-the-art on several relevant tasks. [publication] [github] [project website]
  - Dataset size: 300 GB, Model: Momentum Contrast for Unsupervised Visual Representation Learning (MoCo), Framework: PyTorch with "DistributedDataParallel", Mentor: Mustafa Mustafa, PhD
- **Nokia Bell Labs** — Murray Hill, NJ
  Summer Intern — *June 2019 - August 2019*
  - Implemented U-Net and DenseNet based deep learning segmentation algorithms for OCT images using Keras.
- **University of Arkansas** — Fayetteville, AR
  Graduate Assistant — *August 2017 - Present*
  - Developing a deep learning-based cardiac-age estimation algorithm from peripheral arterial pressure (PAP) signals.
  - Proposed an integral pulse frequency modulation-based modeling of peripheral arterial (PAP) and venous pressure (PVP) signals to extract respiratory rate and heart rate variability (under review).
  - Developed a Kalman filter and hidden Markov model-based unsupervised anomaly detection algorithm for PVP signals using the Gaussian mixture model.
  - Proposed a Gaussian mixture model-based Bayesian unsupervised algorithm for rice panicle detection using Markov chain Monte Carlo techniques from drone images.
  - Executed GLMs with LASSO-based classification for hydrated and dehydrated patients for PVP signals with sensitivity $> 96\%$ and specificity $> 93\%$.
- **Grameenphone** — Dhaka, Bangladesh
  System Engineer — *October 2015 - August 2017*
  - Grameenphone, part of the Norwegian Telenor group, is the largest telecommunications operator in Bangladesh.
  - Worked with more than 400 BTS/nodeBs of Huawei. Planned and implemented radio diversity techniques.
  - Analyzed and solved performance issues. Implemented radio aggregation techniques on wireless backhaul devices.

Grants & Scholarships

- Graduate student ambassador (EE), University of Arkansas — Spring 2023, Fall 2022
- Porter W. Stone scholarship, University of Arkansas — May 2022
- Bangladesh-Sweden trust fund travel grant, Govt. of the People's Republic of Bangladesh — February 2019
- Full undergraduate tuition-waiver with scholarship, Govt. of the People's Republic of Bangladesh — May 2010

Awards & Honours

- Outstanding Graduate Teaching Assistant — Fall 2022
- Research Affiliate, Lawrence Berkeley National Laboratory — September 2020 - August 2021
- Runner-up, 'Cadence India Xtensa Design Contest - Adaptive Beamforming with Microphone Array' [certificate] — 2015
- 11th, National Undergraduate Mathematics Olympiad (Dhaka chapter) — 2013
- Second Runner-up, Bangladesh Mathematical Olympiad (Rajshahi chapter) — 2006, 2008

Teaching Experience

- ELEG 2103 (Electric Circuits I) - Course Instructor — Spring 2023
- ELEG 3124 (Systems & Signals) - Lab Instructor — Fall 2022, 2021, 2020, 2019
- ELEG 3214 (Electronics I) - Lab Instructor — Spring 2020

Leadership

- President, Bangladesh Student Organization, University of Arkansas — June 2018 - May 2019
- Representative (EE), Graduate-Professional Student Congress, University of Arkansas — July 2018 - December 2018

Membership

IEEE, SIAM, American Statistical Association, Institute of Mathematical Statistics

Research Interest

Deep Learning, Data Science, Statistical Learning, Bayesian Statistics, Digital Signal Processing
